Speech interpretation

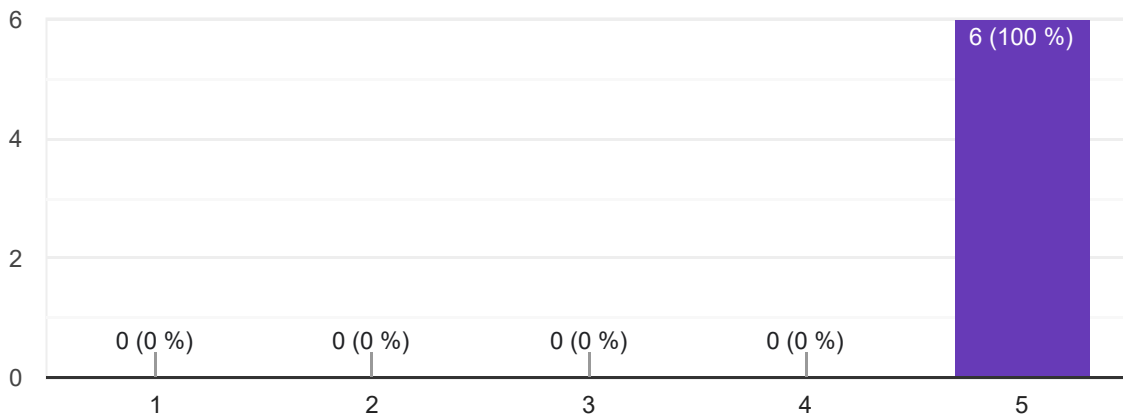

I attended many language classes in my country, these classes don't help much, they just fill people with literacy like a balloon, which gets punctured and lacks air when it hits any object. Conducting IELTS and TOEFL exams has become a profitable business, but it does not help to learn the basics of the language.

I think this class was different from all these, the teacher taught me things that I had never heard in any English class. He taught us to relax and focus on our speech before the speech. He taught us to express English words and sentences melodiously and effectively, he introduced us to how to use body language. Not only that, but he taught us to pay attention to the concept that is going to be conveyed to the audience before speaking. In my opinion, the materials I learned in this class are useful for learning any language, while these materials are also very informative for students who work in speech processing.

Juan Ignacio is amazing!!!

Should better check the level of English of all attendees, as there was too much difference among the students

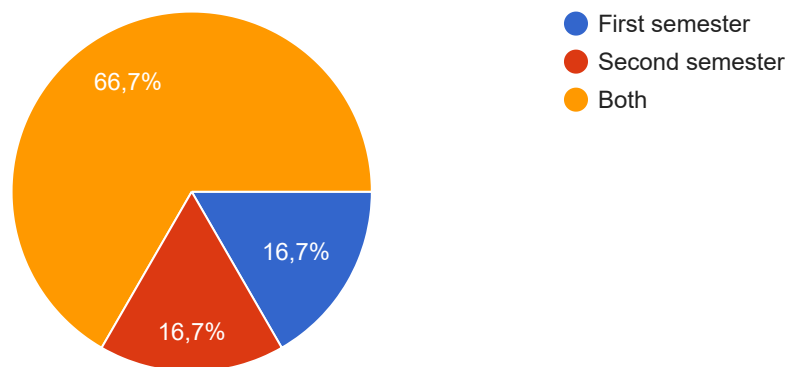

In my opinion, Professor Juan Ignacio Durán Otero is a wonderful professor and if other courses are offered with him, I would like to participate in them.

If I have a chance, I would like to attend the Speak More Clearly class again, because I am sure I will get more information than in the previous class.
