

Entrepreneurship & Innovation Support Service

UC3M Science Park

BUSINESS INCUBATOR

Technology - based firm portfolio

[Activa Proyectos Tech, S.L.](#)

Wireless and sensor based technology focused on irrigated agriculture and professional gardening industries. Saving water, optimization of resources, productivity and sustainability improvement. Everything operated from your Smartphone and PC (IoT).

www.plantae.garden

[Aeon-T CT, S.L.](#)

Development of manufacturing technology that allows to make the usage of carbon fiber profitable in automobile production.

www.aeon-t.com

[Altum Sequencing S.L.](#)

Altum's developed and patented technology allows the detection of cancer cells with an unprecedented accuracy. Therefore we can discern patients with a high risk of relapse, and both help medical oncologists to decide when and how to treat patients and provide them a better understanding of the illness evolution.

www.altumsequencing.com

[Aptent Soluciones, S.L.](#)

Technology-based and socially responsible company whose aim is to shape an accessible and barrier-free communication world. Its main activity is providing services and communication solutions for people with disabilities.

www.aptent.es

[Anzen Aerospace Engineering, S.L.](#)

We do safety y reliability analysis for systems, components and equipment. Currently we are working for leading national and international companies, in industries such as aerospace, defence and autonomous vehicles.

www.anzenengineering.com

[Axter Aerospace, S.L.](#)

Technology applied to hybrid and electric propulsion for aeronautics and aviation. Power electronics, intelligent charge controllers, energy regeneration and storage systems.

www.axteraerospace.com

[Bitergium, S.L.L](#)

Helps companies and organizations working on Open Source and Inner Source Software to manage and understand software development processes, their communities and their key performance factors.

www.bitergia.com

[Capital Certainty, S.L.](#)

Intelligent systems, information search and management, e-learning, e-government, global optimization in renewable energies and automated consulting.

www.capitalcertainty.es

[Canard Drones, S.L.](#)

Fast calibration of NavAids by using automated, unmanned UAVs (drones) that perform accurate flight inspections.

www.canarddrones.com

[Crowd Centaurs S.L.](#)

We offer technology to optimize your content and return your investment in it, adding value to each link in the chain: from the search for trends, content creation, distribution and monetization, to analysis.

www.crowdcentaurs.com/

[Cedrion CTI, S.L.](#)

Design, development and manufacture of ionic wind devices, with 2 main applications: virus and bacteria inactivation through cold plasma for Food and Health companies; and aerospace electronic devices refrigeration.

www.cedrion.com

[Cyclomed Technologies S.L.](#)

We mark molecules with Carbon-11 to improve PET image diagnosis and to do biological traceability studies of new drugs.

<http://cyclomed.tech/>

[Digital Anatomics S.L.](#)

Automatic generation, by the surgeon or dentist themselves, within minutes, of 3D virtual biomodels from TAC 2D images, which support surgical planning.

<https://digitalanatomics.com/>

Drone Hopper, S.L.

High payload capacity drones designed to act in aerial extinction of wildfires and pest control in crops.

www.drone-hopper.com

Enthec Solutions, S.L.

Design and development of cybersecurity solutions to monitor data breaches which may be exposed to the network and are a risk at the cybersecurity level (attacks against their systems and infrastructures) and at the reputational level (attacks against their customers and employees).

<https://enthec.com/>

Evidence-Based Behavior, S.L. Integrated consulting solution for the functional evaluation of psychiatric patients with benefits for health professionals, for patient and caregivers.

www.eb2.tech

Gas and Go Global Service, S.L.

Consulting services, engineering and building of CNG/LNG fueling stations as well as natural gas vehicle retrofitting and NVG applications.

www.gasngo.es

Global Incubator, S.L.

Design, virtualization and acceleration of open innovation ecosystems. Offers technology to institutions through a personalized, white-label SaaS web platform.

www.globalincubator.com

Global Incubator, S.L.

Solutions that boost the development of Human Capital. Knowledge exchange, peer-to-peer learning systems, private spaces to manage and monitor personal progress, control dashboards and reporting tools.

www.innervirtuoso.com

Heatconv, S.L.

Design and manufacture of small electronic devices that recover electricity from the heat generated by any electronic or mechanical element that cool a certain component, improving its performance and increasing its useful life.

www.heatconv.com

Ienai SPACE, S.C.

ienai SPACE develops electric propulsion modules for small satellites, completely scalable and adaptable to each client's needs. Additionally, they offer support and consulting services related to the platform architecture and the mission analysis

<https://ienai.space/>

[Inrobics Social Robotics, S.L.L.](#)

Inrobics offers a disruptive rehabilitation service for the clinical and home setting through a certified digital health platform, based on social robotics and artificial intelligence, for patients with limitations in their motor, cognitive and social skills, and users who wish to maintain an optimal performance in their daily activities.

<https://inrobics.com/>

[ionIDE Telematics, S.L.](#)

Development of entertainment platforms for the hospital setting which provide video streaming, fixed and mobile communications, video telephony, internet and medical applications.

www.ionide.es

[Ketter Batteries S.L.](#)

Design, development, production and commercialization of electric accumulation systems using new generation batteries.

<https://www.ketterbatteries.com/>

[Laboratorio Hipermedia, S.L.](#)

LabHipermedia is a technological innovation company that offers an integrated solution in sports training and management.

www.labhipermedia.com

[Luz WaveLabs, S.L.](#)

Development and manufacturing of products and solutions in the THz and photonic range.

www.luzwavelabs.com

madridspace

[Madrid Space, SL.](#)

The company is an engineering company that offers high quality solutions, in particular, in the field of thermal engineering.

www.madridspace.eu

[Polar Developments, SL.](#)

Development of highly competitive portable and deployable photovoltaic power generators, and of a UVC-LED disinfection system for surface and interior disinfection applications, available as a stand-alone automatic guiding system or as a fixed lamp.

www.polardv.es

[Power Smart Control, S.L.](#)

Design, development and distribution of specialized software. Engineering services related to software, equipment and electronic systems used for control, conversion and conditioning of electric energy

www.powersmartcontrol.com

Global Incubator,S.L.

Platform designed for social entrepreneurs which together with local experts and investors design a local innovation ecosystem.

<http://eu.pullapproach.com/>

Sensia Solutions, S.L.

Optimization of Infrared technology to give ad-hoc solutions to problems that standard thermography is not able to solve.

www.sensia-solutions.com

Teatro Accesible.

Promoted by Aptent Soluciones S.L., Teatro Accesible is an innovative project that promotes accessibility to communication in the performing arts.

www.teatroaccesible.com

Superhero Bots S.L.

At Superhero Bots we multiply human productivity by using bots and intelligent systems.

www.capitalcertainty.es

Unmanned Technical Works,S.L.

Engineering services specialized in civil engineering, industrial inspections and precision agriculture using UAVs. Development and integration of new technologies in UAVs.

www.utw.es

Unusuals, S.L.

Unusuals is a computer vision company specialized in the analysis of linear infrastructures, through the automatic analysis of videos, as well as 3D point clouds.

<https://unusuals.ai/>

Wason Digital, S.L.

SocialCommerce Contextual Platform based on Artificial Intelligence. Develop technology that allows you to obtain relevant data on the market/ social networks/ marketplaces/ metaverses, which can be applied to your business in order to boost sales of products, both physical and digital, and/or services.

www.twinny.es

Wisdom Technology, S.L.

Core technology to define, virtualize and accelerate entrepreneurship, innovation and knowledge.

www.capitalcertainty.es
