

LOCATING UC3M SPACES

UC3M has different campuses and a Science Park distributed throughout the Madrid Regional Community.

On the University webpage you can access the different maps and information of interest for each of them.

<https://www.uc3m.es/vida-universitaria/planos-campus>

To get to an office or spot on any of the campuses you should always follow the alphanumeric combination which will indicate its exact location.

For example, the HR International Office is in office 7.3.H01 on the Leganes Campus. To find its physical location, you just need to know that the first number indicates the building, the second the floor it is on, the letter indicates the hallway, and finally the last digit is the office number.
