## Vision

The Fourth Industrial Revolution!  
We create a competitive and  
student-oriented university  
through curriculum innovation.

## Value Creator KNU 2030

Vision

Working Together | Changing | Leading

Educational  
Philosophy

Truth

Value

Justice

Ideal  
Talent

**VALUE UP Leaders**

(Vision, Academic excellence, Leadership, Uniqueness, Expert, Understanding, Participation)

Missions

Develop the skills of  
students and  
the faculty of KNU

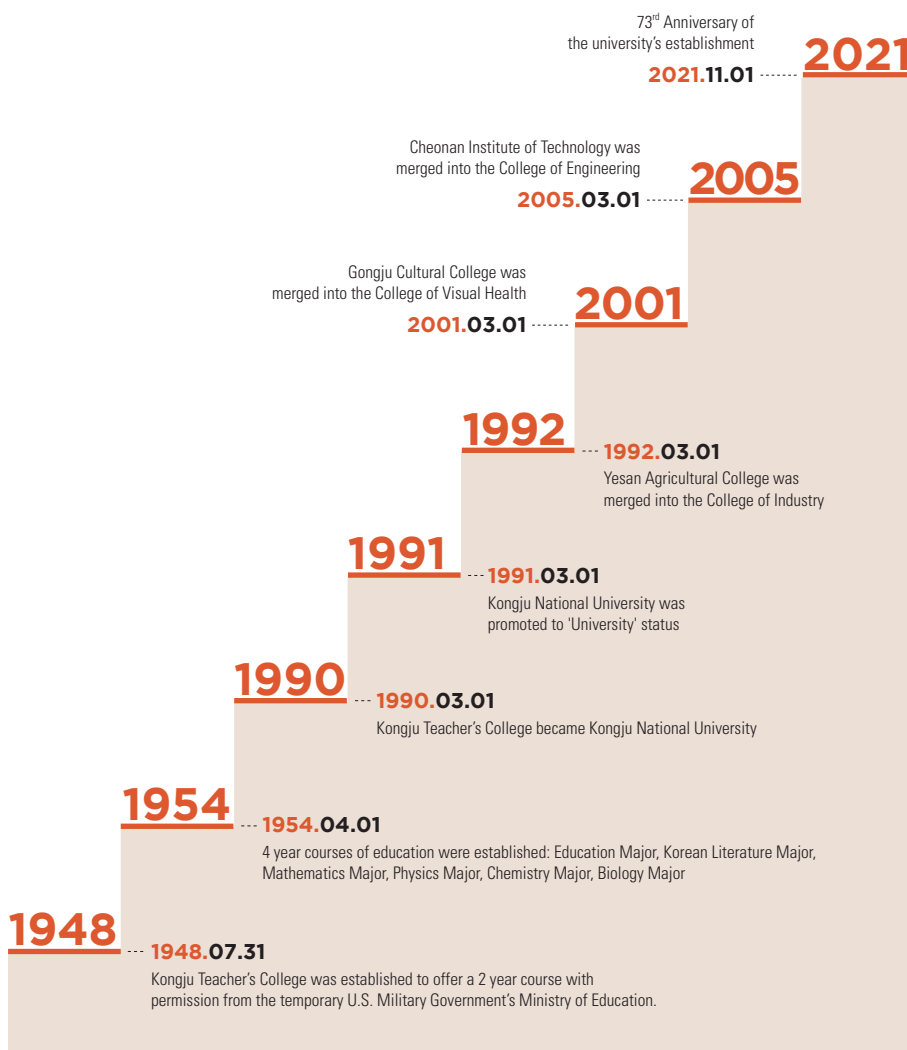

Build creative value  
through studying  
at KNU

Create synergy  
by building an  
ecosystem for  
knowledge value

Build a smart workplace  
where everyone can be  
happy and capable

# History

Since establishment as Kongju College of Education in 1948, KNU has grown into a prestigious national university, which currently boasts seven colleges, one general graduate school, one professional graduate school and seven special graduate schools.

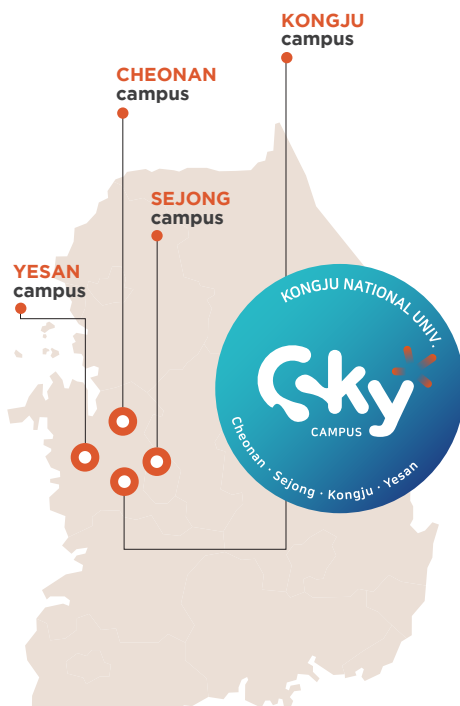

# CSKY

## CAMPUS

The competitiveness of having four campuses provides more opportunities and nurtures future leaders.

With the establishment of the Sejong campus, the commemorative 'CSKY Campus' logo was created. Acting like a hidden card, the addition of the Sejong Campus expresses the shape of the four campuses spreading like firecrackers, with the 'See Sky' reading showing students' free thoughts and infinite possibilities.

### KONGJU CAMPUS

#### A dream of the future, a challenge for the world

Established in 1948, Kongju National University has continued to this day to follow the educational philosophy of truth exploration, value creation and the practice of justice.

[Colleges] College of Education, College of Humanities and Social Sciences, College of Natural Sciences, College of Nursing and Health, College of Arts, Department of International Studies.

### YESAN CAMPUS

#### 110 years of traditional agricultural life and food – a university of globalization

A 611,570.248m<sup>2</sup> multiuse educational space and a campus specialized in agriculture, fisheries and the food sector, enabling mutually beneficial cooperation with the local community by fostering outstanding individuals to lead innovative growth.

[Colleges] College of Industrial Science

### CHEONAN CAMPUS

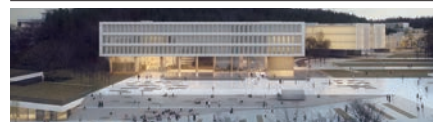

#### Cultivating global talents to lead future engineering technologies

In conjunction with Chungnam's northern industrial belt, this engineering university is developing together with local industry, establishing state-of-the-art facilities and a safe educational environment to improve the quality of education for students.

[Colleges] College of Engineering, Division of Artificial Intelligence

### SEJONG CAMPUS

#### An innovative new-town "Sharing University", training future leaders

Once it opens in 2025, the Graduate School of Policy Convergence, IT, ET, Arts Convergence, Industry-Academic Cooperation Foundation and Research Institute will relocate to the Future Innovation Campus of Kongju National University in Sejong City.

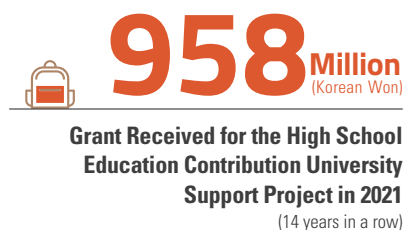

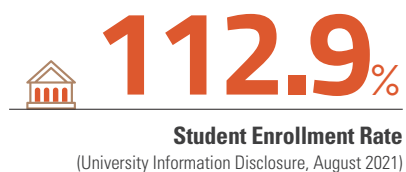

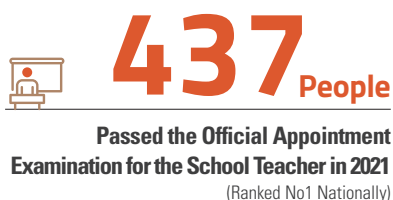

## Performance

Creating a brighter future for the world through creative change and innovation for students.

**Selected as a 'General Financial Support University' as a result of a basic competency diagnosis**

Ministry of Education, 2021

# About the Colleges

# College of Education

<https://sabum.kongju.ac.kr>

## Training 'happiness education leaders,' combining personality and expertise

With 73 years of history and tradition, the College of Education became the largest one among the nation's colleges of education.

It is Korea's best educational institution to train future teachers, having 122 full-time professors and 2,400 students enrolled across 23 departments.

Over the past decade, it has ranked the first in the country in terms of the number who passed the national teacher appointment exam.

It has also achieved great results in outside evaluations, being the sole recipient of consecutive A grades from the 1<sup>st</sup> (1998) to the 5<sup>th</sup> (2020) cycle of the Ministry of Education's teacher training institution evaluations.

# About the Graduate School

---

# Graduate School

---

**Training experts  
with profound academic exploration  
and creative skills**

## + General Graduate School

The General Graduate School aims to contribute to the development of the country and human society. As of 2021 the school operates 87 master's courses, 415 doctoral courses and has 173 enrolled students, studying profound theories, working on academic applications and cultivating leadership, personality and creativity.

<https://graduate.kongju.ac.kr>

## + Graduate School of Policy Convergence and Public Affairs

Graduate School of Policy Convergence and Public Affairs aims to establish a public policy problem-solving talent convergence platform, capable of upgrading national policy and operates a total of four detailed majors in the fields of future growth policy, sustainability policy, inclusive social policy and state administration.

<https://pcpa.kongju.ac.kr>

## + Graduate School of Education

Established in 1980 under the approval of the Ministry of Education, the Graduate School of Education aims to foster professional educators with leadership qualities, able to contribute to national development and operates both a master's course and a research course with classes during the day and evening.

<https://grad.kongju.ac.kr>

## + Graduate School of Industrial Science

Aiming to cultivate competent talents, able to contribute to the development of both their local community and the country, by researching and teaching the theory and practical application methods of industrial technology. Approved by the Ministry of Education on November 9<sup>th</sup>, 1993, the school offers 10 majors and has 34 students as of 2022.

<https://gsis.kongju.ac.kr>

---

---

### + Graduate School of Business

The Graduate School of Business aims to cultivate creative and convergent management experts, with a basis of managerial expertise, practicality and skills of analysis. Its major in Business Administration (currently 32 students) is operated as a weekday evening class, with a choice between the Kongju and Cheonan campus.

<https://gbpa.kongju.ac.kr>

### + Graduate School of National Social Safety

Aiming to cultivate practical expertise, use of technology and related policies across the fields of national security and public and social safety, including areas such as social welfare, diplomatic unification, security, police justice, fire disaster managements and aviation safety management.

<https://ss.kongju.ac.kr>

### + Graduate School of Special Education

Currently operating 6 master's courses and with 70 students, the school aims to cultivate excellent professional teachers in the field of special education and experts in mediating treatment services for children, by developing their personalities as educators, seeking practical teaching and learning methods using advanced education techniques to cope with the globalized information society.

<https://special.kongju.ac.kr>

### + Graduate School of Techno Convergence

The Graduate School of Techno Convergence aims to adapt to the rapid development of industrial technology and foster local talents who can play a leading role in this development, with the expertise, management knowledge and international sense necessary for global competition. With the master's degree course operated in the evenings on weekdays, after obtaining a degree students can enter a general graduate school doctoral course. Established in March 2009 and currently offering 6 master's degrees, with 180 faculty members in each field and bringing in invited outside instructors, the school provides opportunities for experts or corporate managers in the field of technology to take a new leap forward.

<https://techno.kongju.ac.kr>

### + Graduate School of Cultural Heritage

The Graduate School of Cultural Heritage aims to establish a differentiated education system and to foster experts able to continuously preserve and utilize the value of cultural heritage, by actively responding to the rapidly changing social environment. Opened in 2012, its master's degree program is operated mainly on weekday evenings.
