

President's statement

5th March 2020

Dear Colleagues,

The University is continuously monitoring the situation arising from the Coronavirus-Covid-19. The Board of Directors is meeting regularly to evaluate the evolving situation and prepare different strategies to be implemented, if necessary. We are in constant contact with the health authorities. In this respect, I want to inform you of the following points:

1. At the present time, the University Community has not recorded any positive tests for cases of coronavirus.
2. Specific action protocols have already been implemented for the possible reintegration of our foreign mobility students and the possible return of the foreign exchange students at our University.
3. Additional measures are being prepared for implementation, depending on how the situation evolves.

As you know, public information is available on our website (www.uc3m.es) which will be updated as necessary.

Warm regards,

Juan Romo
President
