

COMMUNICATION OF THE VICE-RECTOR OF STUDENTS AND EQUALITY ABOUT THE MEASURES TO ADAPT THE UNIVERSITY TO THE TEMPORARY SUSPENSION OF FACE-TO-FACE EDUCATIONAL ACTIVITY

As a result of the suspension of face-to-face educational activities from 11 to 25 March at the universities of Madrid, adopted by Order 338/2020, May 9TH, of the Regional Ministry of Health adopting preventive measures and public health recommendations in the Community of Madrid as a result of the situation and evolution of the coronavirus (COVID-19), an update of academic calendars, student evaluation and the use of facilities or resources for distance learning are being carried out.

On the other hand, several alternatives are proposed for establishing a flexible framework that allows faculty implement the measures they consider most appropriate for teaching and learning and assessment activities, taking into account the specific characteristics of their subjects.

Within this framework, the coordinators of subjects, together with the professors responsible for the groups, will make the changes in both programming and evaluation systems that they consider convenient, adapting approved syllabus to the exceptionality of the current situation, in order not to harm our students.

These changes in the programming of the subjects, in the evaluation systems, the tutoring regime, etc. must be communicated to the students in Aula Global.

For this purpose it is agreed:

1.Updating of academic calendars

New calendar from March 10, 2020 (see appendixes)

2.Teaching activities:

-Students must be guaranteed with access through Aula Global to the teaching materials and all resources related to the planned contents in this period in order to facilitate autonomous study.

-In addition, it is recommended to use the resources available for online class participation. In the next few days, instructions will be provided on the tools available and procedures to be followed. The following actions are established in order to achieve this:

1. All faculty members will be able to use *Blackboard Collaborate* to teach live to their students at the scheduled time. Classes taught through this tool can be recorded and published on *Aula Global*.
2. *Powerpoint* can also be used by faculty members for recording videos that include voice.
3. Faculty members can also take advantage of content they have produced in OCW, SPOC or MOOC format for online teaching complemented with opportunities for online interaction.

-Tutorials will be held in the Aula Global, which can be either interactive through visual communication resources available (*Google Hangouts Meet*) or by e-mail.

-At the faculty discretion, the laboratory practices of the experimental subjects may be replaced by other types of training activities that guarantee the acquisition of the expected competences, or if necessary, they will be carried out in an intensive way when the teaching activities are restarted.

-Libraries and common spaces (collaborative study desk and rooms) will be closed from March 11TH to March 25th, 2020.

-Due to the novelty of this situation, additional ways of teaching could be made available as appropriate.

3. Evaluation tests

-The first final paragraph of the regulations governing the processes of continuous assessment approved by the Governing Council in its session of 31 May 2011, establishes that "exceptionally, in the case of a student who, for duly justified reasons, has not taken all the continuous assessment tests (of the subject), the teacher may take the measures he or she considers appropriate so as not to affect the grade". In the current exceptional situation, it is of special importance to adopt all those possible measures in order not to harm the students' qualification.

-Wherever possible, evaluation tests that are currently carried out in person will be replaced by others that do not require this presence: works, projects, etc. Midterm master's exams that cannot be replaced by other non-attendance tests, will be moved to the ordinary period of exams of the second quarter.

-In the case of not completing the continuous evaluation process, the final exam of the ordinary period could be worth 100%.

-The evaluation of Final Projects (TFG, TFM) that cannot be postponed, can be defended in a non-attendance way using the visual communication media available at the university.

4. International students

-The university has recommended that incoming international students stay in Spain for the entire academic year. However, for those students who return to their countries of origin and do not rejoin the UC3M for justified reasons once the activity has resumed, non-attendance evaluation tests will be provided as far as possible. In the event that these remote assessment activities cannot be carried out, it will be guaranteed that the final exam will be taken remotely with the support of the corresponding services of the university of origin.

-Those outgoing students who were enrolled in a mobility program and who, due to the COVID-19 epidemiological incidence, request to return to academic activity of the Universidad Carlos III de Madrid, will be readmitted. Their absence will be considered justified until the time of reinstatement and, as far as possible, they will be facilitated in carrying out continuous assessment activities. In the event that they are unable to carry out these activities, they will be entitled to a final examination in the ordinary call with a value of 100% of the qualification.

In Getafe, on 11th March 2020

APPENDIX 1. UPDATE OF THE 2019/20 ACADEMIC CALENDAR

UNDERGRADUATE STUDIES AND REGULATED ENGINEERING MASTER PROGRAMS

(MAIN CHANGES)

1. Temporary suspension of face-to-face educational activity in the period from March 11 to March 25.
2. Change of the end of classes of the second term to May 20.
3. Change of the examination period of the second term from May 21 to June 5 (including Saturdays 23 and 30 of May). This period could be modified if the scheduled dates for the university access exams are not modified.
4. Change of the extraordinary examination period from June 18 to July 3. This period could be modified if the scheduled dates for the university access exams are not modified.
5. The grades of exams of the subjects of the ordinary exam period must be delivery by faculty before 23:59 hours on June 12, to guarantee that students will know if they have to attend or not the extraordinary call.
