Short description

Ignacio Aedo holds a degree and a PhD in Computer Science from Universidad Politécnica de Madrid. He's currently full professor at the Universidad Carlos III de Madrid (Escuela Politécnica Superior). His research interests include hypermedia, interactive systems in education, web systems, electronic books, development methodologies and information systems for emergency situations. In 1990, he started his research activity in the field of interactive systems on which he is still involved. He has been visiting researcher at CSCL of IST Pennsylvania State University (2007-2008) and MAGIC of University of British Columbia (2011).
