Cursos disponibles

Bibliotecas 2.0: Nuevas Tendencias en Contenidos y Servicios (4ª Edición- Grupo 1)
 Profesora: Ana María Morales García

Fechas: 5 de abril de 2010 - 30 de Abril de 2010 (4ª EDICIÓN-Grupo 1ª)

Descripción del curso:

El apellido 2.0 ha entrado con fuerza en el ámbito digital y es ampliamente utilizado en numerosos sectores de actividad. La innovación en los usos del software social por parte de las bibliotecas y otras unidades de información es continua, lo que implica adaptación a las nuevas demandas de los usuarios en la sociedad de la información.

Este curso pretende mostrar un amplio abanico de los contenidos y servicios que están implantando las principales bibliotecas de todo el mundo diseñados para satisfacer las necesidades de nuestros usuarios. El programa explora además cómo pueden Internet y la tecnología ayudarnos a ponernos en marcha ofreciendo posibles soluciones basadas en estudios de caso.

En esta 4ª edición, el curso ha sido revisado y actualizado y profundizará en nuevos usos y herramientas que demandan los profesionales de la información.

• RESEARCH AND TECHNICAL SERVICES •

- Assessment of Information Policy and Technological Innovation aimed at building the knowledge society.

- Creation of models and programs for ICT-literacy in digital educational libraries.
- Design and implementation of instruments for improving the management of libraries and information services in technological environments.

- Modeling and implementation of indicator-based evaluation models for the assessment of the progress towards the knowledge society.

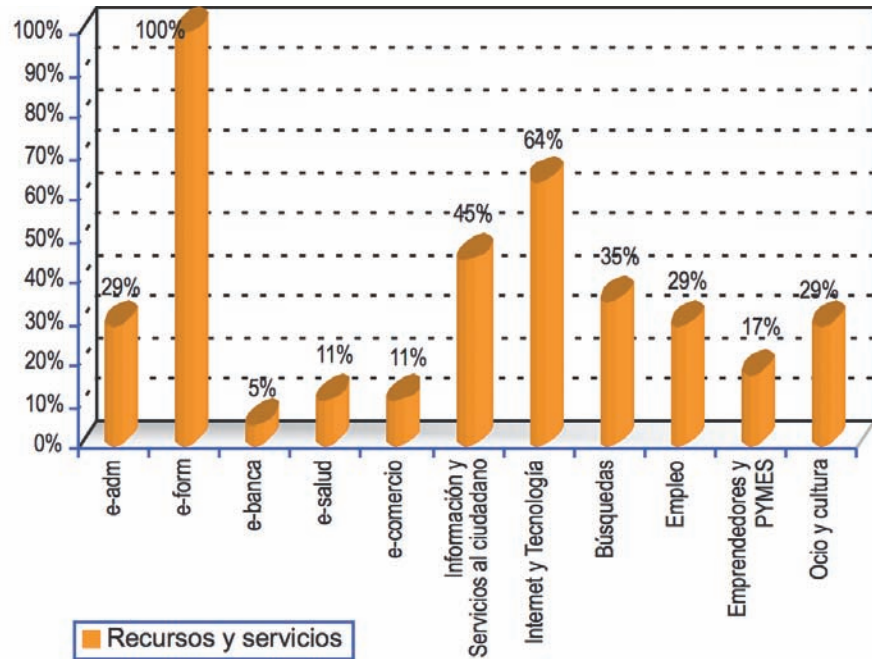

• INNOVATIVE SOLUTIONS •

One of our innovative solutions is the Observatory of the Knowledge Society in the field of Higher Education, whose mission is to analyze progress towards the knowledge society that is taking place in the Spanish Higher Education System, by monitoring quantitative and qualitative indicators. The Observatory therefore follows the incorporation of Information and Communication Technology (ICT) and its application in support of teaching, learning and research.

• FEATURED COLLABORATIONS AND I+D+I-PROJECTS •

Among the key partners and customers of the ACROPOLIS group are public and private entities of the academic, research and technological development fields. These are, among others:

- The Spanish Public Enterprise for State Lotteries and Betting,
- the International Federation of Television Archives,
- the Sports Association Real Madrid CF,
- Teledocumentation Services SA (BARATZ),
- the Germán Sánchez Ruipérez Foundation (CITA),
- the Spanish Ministry of Health and Social Policy,
- the Autonomous Community of Madrid, and
- the Spanish Foundation for Help Against Drug Addiction.

IMPOLIS Project: Percentages of resources and services provided by Spanish telecentres

Some of the group's most important I+D+I-Programs are:

- "IMPOLIS (Indicators for the measurement of ICT policies' impact on social inclusion)"
Funded by: Spanish Ministry of Science and Innovation. Date: 2010.
- "MIDEPOLITIC: Indicator Models for measuring ICT policies' impact on social inclusion: a comparative analysis between coun-

tries of the European Union and Central America and the Caribbean."

Funded by: European Union. Date: 2009.

- "ALIMADIES: Information Literacy: electronic didactic materials and indicators for their evaluation in the field of higher education."
Funded by: Autonomous Community of Madrid. Date: 2006.

- Content Analysis Tools knowledge resource management in Education: CRA for the knowledge society. "

Funded by: Autonomous Community of Madrid. Date: 2005.
