### **Job Description:**

Universidad Carlos III de Madrid is launching new studies about Biomedicine in a newly established Department and School of Biomedical Studies (pending of approval) and invites applicants for several faculty positions, at any rank, in Biomedical Studies.

This university-wide strategic faculty hiring initiative is expected to bring up to thirty new faculty members to campus over the next four years, including four possible endowed chairs, positions to develop the key focus areas of:

- Cardiology;
- Infectious Diseases;
- Neuroscience; and
- Oncology.

It is anticipated the hiring of one endowed chair senior faculty position in each of the above key areas. The faculty hired through this initiative is expected to establish a vigorous, internationally-competitive research program and to be committed to excellence, in both undergraduate and graduate (M.S. and Ph.D.) education.

Applicants employing interdisciplinary and multi-scale approaches, coupled with new technological tools, those who complement existing strengths of the university and those with the potential to attract extramural research funding, are especially encouraged to apply.

The new faculty will be affiliated with the Department of Biomedicine (pending of approval) and to become active participants in research and teaching.

A Ph.D. is required; postgraduate degree experience and demonstrated research excellence are strongly preferred.

The application review process will begin on June 30th, 2021.

The PDF should contain the following sections:

- A cover letter, that includes:
  - o The primary focus area, from the above key disciplines, that most closely describes the applicant's research expertise (secondary focus areas may also be included);

- o The applicant's ability to collaborate with current health-related research and education efforts in Madrid, Spain, other countries in the European Union, and the USA (e.g., identifying potential collaborators among hospitals, institutes and academic departments in Spain and abroad, that most closely match his/her interests)
  
- o Current/expected academic rank
  
- A full curriculum vitae and pdf files of the 10 most-relevant scientific publications;
- A two-page (limit) discussion of research experience, interests and future goals;
- A two-page (limit) discussion of teaching interests and philosophy; and,
- The names and contact information for five professional references.

Salary commensurate with experience and prior employment history.

### **Universidad Carlos III de Madrid**

Founded in 1989, UC3M is a public university oriented to excellent and committed research by improving society through cutting-edge research and high-quality teaching, in accordance with the most demanding international guidelines.

UC3M has about 23.000 students, 20% of students at UC3M are international. The University offers 38 bachelor's programmes in the areas of Social Sciences and Law, Humanities and Engineering. Masters and doctorate programmes are also offered in Law, Economics, Political Sciences, Business, Humanities, Communication, Information and Social Sciences and Engineering.

UC3M has 2.081 professors, 11% of faculty is international. We promote the training and continuous professional development of our teaching staff as well as innovation in teaching. The university actively promotes the personal development of all those connected to the higher education community. UC3M endorsed The European Charter for Researchers and Code of Conduct for the Recruitment of Researchers, **HR Excellence in Research** seal (Dec 2016) and has a relevant **presence in European Open Science and Policy forums (YERUN representative at the European Open Science Policy Platform, OSPP)**
